

## **ANDY HEAD**

### Small Venue Technical Information

**Performance:**

Minimum space – 12’ deep x 15’ wide x 10’ high  
access to audience for participation  
A clean, level, and solid performance space.  
Easy Electrical outlets close to performance space.

**Personal  
Requirements:**

A washroom nearby  
A bottle of water or gatorade  
A parking space for a minivan

**Sound:**

Andy will provide a sound system. If you are planning on using your own system, the minimum requirements are a microphone and a CD player. Events that require Andy to fly must provide their own sound.

**Indoor Events:**

Plan on having the performance in a space, which has good acoustics & lighting – this is important to the overall quality of the show.

**Outdoor Events:**

Andy’s show works best when sheltered from high winds and the sun.

Technical information is general. Specific technical information will be supplied for individual venues.

Please contact CLASS ACT if you cannot provide any of the above so other arrangements can be made. Thank You!
